

— Indicates Through Traffic Routes  
**Hyperfix 65-70 Construction Zone**  
*Detail Map Shown To The Left*

## Project Information

In the spring and summer of 2003, repairs will be made to the combined section of I-65 and I-70 along Indianapolis' near eastside. The interstate will close to through-traffic for 85 days starting May 26 and ending by August 19.

Working 24 hours a day, seven days a week, construction workers will make much needed repairs. By closing the interstate repairs can be made in less than half the time of regular construction. It will save the state millions of dollars in project costs and make the repair process safer for motorists and construction workers alike.

Throughout the 85-day closure period, northbound and southbound through-traffic along the combined section of I-65 and I-70 will be restricted. However, exits to many downtown streets will still be accessible via the collector-distributor (C/D) system. [See detailed project map at left.]
